PROFESSIONAL SUMMARY

Senior PHP Developer with 7+ years of experience designing and developing scalable CRM, ERP, e-commerce, and web applications using CodeIgniter and Laravel. Expertise in RESTful API development, MVC architecture, OOP, and MySQL, with a strong focus on performance optimization and third-party integrations. Proven ability to deliver high-performance, scalable solutions in Agile SDLC environments.

CORE COMPETENCIES

- Software Development
- REST API Development
- Performance Optimization
- Third-Party API Integration
- Payment Gateway Integration
- Database Design & Query Optimization
- WordPress Plugin Development
- Cross-Functional Collaboration

SKILLS

- Languages: PHP, JavaScript, TypeScript
- Frameworks: CodeIgniter, Laravel
- Frontend: HTML, CSS, SCSS, Bootstrap, jQuery, AJAX
- Architecture: Agile SDLC, MVC, OOP, RESTful APIs
- Databases: MySQL, SQL, PL/SQL
- Database Design: Normalization, Indexing
- Version Control: Git, GitHub, GitLab, Bitbucket
- Security: OAuth, JWT, Session-based Authentication, RBAC, API Security Best Practices
- Tools: Postman, Composer, Mixpanel, Jira, ClickUp, Claude Code AI
- Deployment: cPanel, Plesk, Windows IIS Server, Environment Configuration
- CMS: WordPress
- Basic knowledge of: PHPUnit, Docker, React

EXPERIENCE

Software Engineer, FindLaw (a unit of WebMD), Bangalore, Jun 2026 – Present

- Enhance, improve, and maintain a portfolio of existing WordPress websites running on a Multisite network, ensuring consistent performance and reliability across the platform.
- Leverage Claude Code (AI-assisted development) to accelerate code changes, feature enhancements, and broader web application development.
- Manage source code versioning and collaborative workflows using GitLab.

Senior Software Engineer, Alpha Group, Chennai, Jan 2024 – May 2026

- Architected and maintained CRM application to streamline client data management and automate business workflows.
- Developed and implemented RESTful APIs and integrated third-party services to consolidate multi-source data, improving system efficiency and functionality.
- Boosted application performance by 56% and reduced API response time by 45% through backend optimization, database tuning, and code refactoring.
- Optimized database queries and schema design to enhance scalability and improve data retrieval performance.

Senior Consultant, Optimum Infosystem Pvt. Ltd., Chennai, May 2023 - Oct 2023

- Developed new modules for an existing fintech application, enhancing functionality while ensuring secure financial data processing.

- Resolved critical issues and upgraded the application to a newer PHP version, improving compatibility and system stability by 20%.

Senior PHP Developer, Netensity Information Systems India Pvt. Ltd., Chennai, Apr 2022 - Nov 2022

- Developed secure RESTful APIs with authentication, ensuring reliable data access and system integrity.
- Resolved long-standing issues in Google API integrations, improving service reliability by 30% and enhancing application performance through debugging and optimization.
- Integrated third-party services to track user activity and identify frequently utilized features, enhancing application functionality and user experience.

Software Engineer, VHS Consulting India Pvt. Ltd., Chennai, Aug 2021 - Jan 2022

- Developed robust RESTful backend services for seamless integration with web applications.
- Collaborated with cross-functional teams to define, refine, and deliver project requirements.
- Worked in Agile SDLC, contributing to sprint planning, stand-ups, and retrospectives.

PHP Developer, SMAR Technologies Pvt. Ltd., Coimbatore, Apr 2018 - Jul 2021

- Developed scalable e-commerce, CRM, ERP, room booking and reservation systems, and inventory systems, improving application performance and reliability.
- Designed and implemented RESTful APIs, built custom WordPress plugins, and integrated third-party services such as payment gateways.
- Built reusable components and ensured cross-platform compatibility, reducing development time by 30% and improving efficiency.
- Optimized application performance by refining database queries and implementing frontend enhancements, reducing page load time by 40%.
- Led project development and mentored junior developers, improving team productivity and ensuring timely delivery of projects.
- Managed deployment and maintenance of PHP applications on cPanel, Plesk, and IIS Server, handling hosting and environment configuration.

PROJECT DETAILS

CRM System for Photography & Event Management Services

Technologies: CodeIgniter, RESTful APIs, MySQL, jQuery, AJAX, Bootstrap, Git, Postman, cPanel

- Designed and developed a centralized CRM system for managing client interactions, event bookings, lead tracking, and post-event engagement.
- Automated workflows and integrated Email, SMS, and WhatsApp services, improving operational efficiency by 35% and reducing manual effort by 40%.

Room Booking & Reservation System

Technologies: CodeIgniter, MySQL, jQuery, AJAX, Bootstrap, cPanel

- Developed a scalable room booking platform with real-time availability and end-to-end reservation workflow (search, booking, confirmation), improving booking efficiency by 30%.

E-Commerce Platform

Technologies: CodeIgniter, MySQL, jQuery, AJAX, Bootstrap, cPanel

- Developed a scalable e-commerce web application with product catalog, shopping cart, checkout, and order management, integrating a secure payment gateway with transaction validation and performance optimization.

EDUCATION

- Master of Computer Applications (M.C.A), Periyar University, Salem, April 2016
- Bachelor of Computer Applications (B.C.A), Sacred Heart College, Tirupattur, April 2014
